

# GICA CEMENT FACTORY

www.gica.dz

**Location:** Gica Cement Factory  
in Meftah, Algeria

**Model:**  Vulcan Anti-Scale System

**Area:** The eco-friendly Vulcan System is installed on the make-up water line to the injection pump of the crusher workshop.

**Purpose:** To use an eco-friendly limescale treatment solution, without using chemicals.

**Result:** After a test period of using the Vulcan Anti-Scale System, the technical inspection team noted positive results.

**Installer:**  CMTE  
Ecological Treatment

Injection pump

## Certificate of satisfaction

I, Mr. Chouaib, the maintenance manager, confirm that Zerdoud Water Treatment did a great job of installing the electronic Vulcan Anti-Scale system, to our entire satisfaction.

We praise the team for their excellent service, on-time delivery and professionalism of the equipment.
